

Celebrating over 50 years of The South Asian Community within Worcester

Worcester Mela Presents.....

Mela Voices

Worcester Mela was set up to celebrate the Culture & beauty from the Indian Subcontinent, part of the journey in setting up a Worcester Mela is recognizing our past and the journey we took to the UK.

Documenting the story is crucial; not only to preserve and officially recognize the success of our community settling in the UK and the beautiful City of Worcester, but also to keep the memories and stories of our elders and founding fathers alive. So we can celebrate and preserve it for future generations.

As a migrant community that has now called Worcester Home for over 50 years it is important that our story gets told.

The Mela Voices project aims to record the wonderful photographs, memories and stories that early 1st, 2nd/3rd generation settlers have in a unique event that aims to bring together the community to reminisce, contemplate, reflect and celebrate our loved ones that sacrificed so much for us. Let's get together and talk about our parents/grandparents experiences and memories.

The event is open to anyone from the Indian Subcontinents or anyone who has had family roots there. We are particularly keen to hear stories and see photographs, memorabilia, art, items of sentimental value, military medals or items .
